The approximately 9,700 square foot unit at the rear of the building was a day care center with a large side entrance and 3,000 square foot rear yard playground.

The building was originally built for a 12-unit office facility and provides for maximum division flexibility. The former day care center can easily be subdivided for various size office tenants and the front is currently subdivided into four small units. It is ideal for a single owner user with expansion rental space availability.
